

ICCS website announcement

The 10th Biennial Meeting of the ICCS will be held in Boston MA, USA from October 10th thru the 13th, 2008. It will take place jointly with the American Academy of Pediatrics Section on Urology and the Pediatric Urology Nurse Specialists, and the Society for Fetal Urology.

The meeting will feature topics of interest on incontinence relevant to physicians, nurses, nurse practitioners, physician assistants, urodynamic technologists, spina bifida clinic team members, psychologists, and developmental pediatricians. It will include issues, investigational tools and therapeutic modalities that are being promoted currently and have been in the past, but with updated thoughts and innovative therapies for future consideration.

Boston is a wonderful city in which to exchange ideas, especially in the fall when the foliage is at its peak and the city is alive with its unique culture.

The ICCS Board encourages and welcomes its members as well as non-members, guests and friends to attend. We aim to stimulate your mind and nourish your spirit.
